A simple trick to improve your score in Grammar and Accuracy in IELTS writing Task 1...

The pie charts below show the percentage of electricity production by fuel source in Britain in 2000 and 2010.

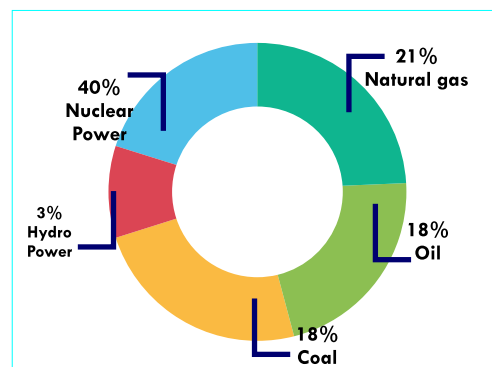

Summarize the information by selecting and reporting the main features and make comparisons where relevant. Write at least 150 words.

ELECTRICITY PRODUCTION 2000

ELECTRICITY PRODUCTION 2010

Importance of Grammar in IELTS Writing Task 1

Grammar and Accuracy makes 25% of your IELTS Writing task scores.

Trend Setting verbs are the easiest way to boost your score in this parameter. The words that mention high points, low points and fluctuations make a huge difference

**Rise:** go up/increase/inflation/ move upward/ climb/shoot up/surge/ leap/ jump/ soar

**Fall:** decline/ reduce / go down/ drop/ dip/ plummet/ plunge/ slump/ dive/ take a nosedive

**Fluctuate:** rise and fall erratically/ vary

**No change:** remain stable/ remain steady / stay constant/ maintain at the same level

The pie charts illustrate the amount of electricity generated from different sources of fuel in Britain in 2000 and 2010.

Overall, there was a considerable ..... in the use of nuclear power in Britain, whereas, a significant ..... was observed in the use of hydropower. Moreover, oil and coal saw a fall and natural gas too showed a slight ..... in the consumption.

In 2000 Britain used 20% of nuclear power for electricity production. Natural gas and coal represented 24% of the input for electricity production. Almost a quarter of oil was used for electricity production. Only a small fraction that was 10% of hydropower was used for electricity production.

In 2010, consumption of oil and coal was ..... and saw a moderate ..... to 18% while there was a ..... in the usage of hydropower, it was 3%. Also, there was a slight ..... in use of natural gas, it was 21 %.

Most strikingly, nuclear power was used maximum for production of electricity comprising 40% of total electricity production in 2010.

Let us make it financially easy for you to study abroad with our Education Loan partners to guide you... **because finances should not be the reason to stop you from achieving your goals...**

## STUDENTS SPEAK

I want to thank the entire team of Fateh Education that made this whole process of getting admission to one of the most prestigious universities in Europe like UCD, DCU and TUD.

For anyone, studying abroad is a dream and Fateh is the perfect gateway to fulfill that dream. Their counselors are highly experienced and explain everything in such a simple manner that it becomes convenient to understand. They helped me a lot in reviewing all the SOPs and Essays that we submitted in the Universities that helped me to make my profile stronger and get Merit Scholarships from DCU and NCI. The Visa process is no doubt a very hectic process but all my Counselors, Visa Team and Finance team especially Priyanka Sharma, Neha Bhatia, Saroj Upreti, Kelyn Ramror and Ashish Kumar provided their full support for arranging documents, thanks to their handy 'Checklist'. The team is just a phone call/email/message away to provide their guidance, even in this COVID-19 period.

If anyone is planning to study in Ireland or the UK then enter Fateh's Office, I must say their tag line is truly apt **'Think Ireland/UK, Think Fateh!'** – Rohan Gupta

Thank you, Fateh! I had taken the power packed IELTS training on CLMS, which supported in giving me a direction towards my preparation which helped me score high results. Special thanks to Jayati Sarkar Ma'am for conducting reviews for the Mock tests and guiding me through the analysis. Many thanks to Deepti Sharma Ma'am for proactively helping me with the University application process. Fateh is very professional in providing the right assistance to students. - **Anushree Milind Kolhe**
