Comments from Ireland's Minister for Higher Education, Mr Simon Harris

About the 2021/2022 academic year

19 April 2021

On overseas students coming to Ireland: I'm very optimistic about this for two reasons. One; the mandatory hotel quarantine legislation that we have in place expires this summer. So mandatory hotel quarantine should not be even a medium term policy objective. It's a short measure that we need to have in place while we get on top of variants and vaccines. The second reason I'm very optimistic is the common sense change that was brought about last week... in relation to vaccinated people not having to go to mandatory hotel quarantine... many more will be (vaccinated), by the time September comes about. ...From an actual university point of view I am extremely optimistic about the coming academic year, not just for international students, but for getting all students back to campus. Because between rapid testing and the vaccine programme I think we can look forward to a much brighter college year.

Good News!

VFS is accepting applications for students for the September intake. Be informed that Ireland visa application centres are open on a limited number of days with only a few staff in the visa office due to pandemic restrictions. So, students should avail of the Check and Verify service to get the study applications within 4 weeks. It is important that students apply for multi entry visas only.
